A Fine Thing for the Teeth

Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a wonderful effect on the teeth and gums. Its embalming or antiseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acrid properties of tooth pastes and powders which destroy the enamel. One bottle lasts six months.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you. FREE OF CHARGE. THE STATE LEGISLATURE.

Nothing but the necessary work of organization has so far been done by the Legislature. The principal thing of interest in the deliberations of the Solons at the Capital will be the selection of some man to succeed the eloquent Senator Sharon. Mr. Fair is already installed in rooms at the Ormsby, and no doubt looking carefully after his personal interests. We are assured that a combination has been made to defeat him, unless he proves willing to give substantial reasons for his election.

After the main business of "choosing" a successor to Sharon shall have been accomplished, there are various matters to which we shall respectfully call attention as proper subjects for legislation. These are, among others, provision for the care of the insane, and some amendments to the election laws and the fishery laws.

EDITORIAL NOTES.

Ex Governor Sprague is said to be raking up all the old stories told before her marriage of his wife, born Kate Chase. These shabby materials he proposes to use in his coming suit for divorce. This is mean in Sprague. Though the daughter of the Chief Justice of the United States, Kate Chase was a wild girl before her marriage. There were scandals about her, of which Sprague could not have been ignorant. It should have been his business before marriage to ascertain their truth or their falsity. His act making Kate Chase his wife either set the seal of his forgiveness upon all her bad acts or proclaimed his perfect trust in her chastity. In either case he has now no right to go back to that ante-nuptial period for materials with which to defame his wife's honor.

Discussing the problem of the suppression of polygamy in Utah, the Salt Lake Tribune recommends Congress to pass laws that would secure exact justice in the Territory, and then send some men there to execute those laws. "The thing needed in Utah," says the Tribune, "is to destroy a kingdom, and to so fix things here that what is a felony in Nevada or Nebraska shall not be termed a religious sacrament in Utah. All this can be done peaceably and quietly, and without the loss of a drop of blood or the sacrifice of property." Our esteemed contemporary with the saline name seems to have hit the nail on the head.

There is some evidence that there will be a struggle over the United States Senatorship. While General Miller's forces are active and confident, the friends of Senator Booth do not by any means give up the contest and are earnest in his behalf. Judge J. McM. Shafter is present at the Capital and there are rumors that he is developing unexpected strength for the Senatorial prize.—Sacramento Bee.

It is related of the savages of Van Dieman's land that their language has no word for love, but four for abortion. The savages of Brazil have several words for kill, but none for gratitude.

Tehama trembled with an earthquake yesterday. The shock was accompanied by a sound like muttering thunder. Our California neighbors got such jars occasionally, but are seldom treated to an accompaniment of thunder.

William Rook was choked to death last week in a San Francisco restaurant. He tried to swallow a big piece of steak. This should be a terrible warning to all "bolters."

The Salt Lake Tribune of January 1st is an extra number, illustrated, and full of valuable information concerning the resources of Utah and Idaho. This extra edition is highly creditable to the paper.

Disraeli's "Endymion," a work of mitigated trash, brought its author \$80,000, the largest sum which any author has received for a copyright.

It appears from the Carson Times that Assemblyman McGowan, of Es-

meralda, was drunk and disgraced himself in the Assembly chamber yesterday.

J. E. Baker, formerly of the Reno Gazette, has sold the *Homer Mining Index* to Townsend & Everett.

Adolph Sutro made the Free Library of San Francisco a New Year's present of \$1,000.

The Sensitive Mule.

From the Peoria (Ill.) Transcript.
Employees of the Streater Coal Co. attempted to lower a fresh mule into the mines. When the cage started down the animal was overcome with terror, and when they went to take him from the cage they found that he had died of fright while descending.

W. H. Scott of San Francisco, the holder of the Champion Diamond Belt of the Coast, has challenged Geo. Wilcox of Bodie for a seventy-two hour pedestrian contest. Wilcox has accepted, and the contest will take place in Bodie as soon as the details can be arranged.

A trout weighing eight pounds and one ounce was caught in the Carson river on New Year's day.

The work of sinking the Alta vertical shaft commenced yesterday. An assessment on Alta stock is in order.

Salt Springs have been discovered in Placer county, Cal. The water contains a high percentage of salt.

The Nevada Supreme Court organized yesterday, with Judge Belknap on the bench.

The Famous Opera Singers.

Annie Louise Carey and Clara Louise Kellogg are beyond question the most famous opera singers of modern times. In fact they have been universally acknowledged to be the leaders of their profession, as well as ladies of large experience and particularly good taste. They have probably traveled more extensively than any ladies on the stage, and, as a consequence, have had excellent opportunities of judging of the merits of different countries and their productions. It is certainly a very great credit to California and the balmy semi-tropical climate of the Pacific, to have had them pronounce Slaves' Yosemite Cologne by far the best they have ever used in any country. For sale by Osburn & Shoemaker.

Shiloh's Consumption Cure.
This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts., and \$1.00. If your Lungs are sore, Chest or Back lame, use Shiloh's Porous Plaster. Price 25 cts. Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

On Account of Removal.
Mrs. Julia Prescott, the fashionable milliner of this place, takes this method of informing the ladies in general that on account of removal she is compelled to sell her beautiful stock of millinery and fancy goods at a sacrifice. Ladies wishing to secure bargains in reality, will do well by calling soon.

STREET IMPROVEMENTS.

An Englishman Gives His Ideas on the Subject—Wants a Big Drain, But No Macadamizing.

RENO, Jan. 1, 1881.

Editor Gazette.—I have seen many complaints with regard to the state of the streets of the town, which everyone knows have been in a filthy condition this winter and most likely will be repaired this spring. I lived in England many years, and never saw better streets and roads than they have there. If we had half a dozen of their old road men, they would fix up Reno in the following manner. They would sink a main drain, commencing against the hill on Virginia street, north of town, and take it to the river to empty. All other streets could have small drains to empty into the main drain, so far as convenient. This done, we want the streets graded so as to throw the water to the edge of the sidewalks, where it must be carried to the drain. I object to macadamizing because it is extremely noisy, and to anyone sick it is an intolerable nuisance. Besides, it lames horses that run on it. Fifteen years ago they macadamized Broad street, Birmingham, England, but discontinued it on the above grounds, and it cost each resident when sick about ten dollars to put tan-bark from the tannery on the street before his house.

After these objections, you will ask what I propose, and, if I am not right, it may draw out some better plans. We have an immense gravel hill about one mile west of town, the railway running to it. Put in a temporary switch at the foot of the gravel hill, and another at the end of Virginia street, where the gravel could be dumped for that part of the town. You can hire a few flat-cars and the use of "48" to run them up. They will come down grade themselves, with the use of a brakeman. I make these suggestions because I think I will have the pleasure of seeing better proposals.

JOSEPH WATSON.

[Mr. Watson's objections to macadamizing seem to be not well founded. The Birmingham street of which he speaks was probably paved with stone blocks, not macadamized. A macadamized road, if well made, is smooth and hard. Wheels roll over it with but little jar. Macadam's method of road making may be briefly described as follows: A road bed is first made by dumping in stones to the depth of about a foot. Over this foundation a layer of broken stone, several inches thick, is evenly spread, and rolled. The stone used for the surface layer is broken into pieces not exceeding a certain size—they must not be too large to pass through a ring about an inch in diameter. After rolling under a heavy pressure, the surface of a road thus treated becomes as smooth as a floor, and as hard as rock can make it. Drains at the side carry off the water. All the great highways of England have been macadamized, and macadamizing is popular in the United States. There are miles of streets so treated in Oakland, and where the work has been well done it never fails to give satisfaction. The expense of repairs for a macadamized road is but trifling. Such a road, well made, will need scarcely any repairs for twenty years. Mr. Watson's suggestion to put gravel on the streets hardly meets the want. Pebbles, or gravel, sink into the ground so fast that they must be constantly renewed, and, at best, are of little service. In regard to drainage, there is no present need of such a costly drain as he advocates. Surface drains, properly constructed and kept in order, would keep Virginia street and Commercial Row, if macadamized, nearly free from mud. There is urgent necessity for the surface drainage of Virginia street. The stagnant pools on that street are a disgrace to the town and a menace to the health of its population.—Ed.]

Sociable.

The ladies of the M. E. Church will give a sociable to-morrow (Wednesday) evening at the Church. Music and readings will be given, and refreshments served in the school room. No charge will be made at the door. All who wish to spend a pleasant evening are invited.

OFFICIAL PEDESTRIANISM.

The Operation of the New Salary Law—Sheriff Walker Starts for a Seven-Mile Tramp After a Witness.

The Salary Bill is now in operation, and our county officers are hereafter to be reimbursed under its provisions for their labors in behalf of the public. There are signs of an active "bucking" from officials throughout the State. Washoe county has the first instance of trouble under the new law.

The Grand Jury in session this morning desired the evidence of J. R. Holcombe in the case of Sharp, the sheep thief. An attachment was issued for the body of the defaulting witness, and Sheriff Walker was ordered to serve it. Holcombe lives about seventeen miles east of Reno. The Sheriff reflected that to hire a team to make the trip would cost at least \$10. As his salary under the new law is only \$8 33 a day, he reasoned that he could not afford to hire a horse. The Salary Act allows him nothing for traveling expenses. He therefore decided to start out on foot to secure the witness. A GAZETTE reporter found him making preparations for departure. The Sheriff proposed taking a pair of blankets with him, and to sleep in the sagebrush on the way to Holcombe's, which he hoped to reach early to-morrow morning. After a few hours' rest he would start back with the witness. Holcombe weighs about 200 pounds, and might refuse or be unable to walk; but the Sheriff, being strong and active, thought he could pack his man at the rate of at least a mile an hour. He confidently expected to get back in Reno some time to-morrow night, and to lay the body of Holcombe before the Court on the following morning. Holcombe might possibly die on the way up from exposure and rough handling, but his body would be brought to the Grand Jury just the same. The return of the Sheriff will be looked for with interest by the Grand Jury, who may have to wait for the evidence of Holcombe, but wait, of course, at the expense of the county.

The County Assessor's deputies, as well as the Sheriff, will be likely to get plenty of exercise under the new Salary bill. The Act allows the Assessor's deputy \$4 per day, but nothing for expenses. If the Assessor sends a deputy into Roop to appraise the property in that section, said deputy will have to go on foot. If he went on horseback, his own and the horse's expenses would amount to \$3 per day, not allowing anything for horse hire or interest on capital invested in the quadruped.

In the Court room, the Clerk is obliged to demand payment in advance for entering every motion and order in any suit. No paper can legally be filed without a cash payment of 75 cents. The lawyers are obliged to make their own change, and must therefore be provided with plenty of silver, if they expect to make any impression on the Court.

The opinion is generally expressed that the Salary Bill needs considerable amendment.

Work on the Nevada & Oregon.

Mr. Knox is pushing his contract work on the N. & O. He has about twenty men employed in grading. They are now working on a heavy filling, near the slaughter house, the heaviest in Mr. Knox's contract. He proposes to increase his force next week. The weather continues favorable for his operations, and the ground is easily worked in its present condition. Mr. Sturgeon was to begin the trestle work to-day. Mr. Knox's contract is likely to be filled much before the specified time. Col. Moore is expected to arrive from New York about the twentieth inst.

TALK IS CHEAP,

And So Are FINE Clothing, BOOTS, SHOES, HATS

Gentlemen's AND BOYS FINE FURNISHING GOODS.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
